4   New Features

The State of New Jersey, Department of Children and Families, Children's System of Care has requested a new Out-of-Home (OOH) Intensity of Service (IOS) called RTC-BH/DD (Residential Treatment Center-Behavioral Health/Developmental Disabilities). With the addition of the new IOS categories, four existing OOH provider sites need to have their IOS program type changed from RTC to RTC BH/DD. Once the new IOS / Program types have been added, the youth assigned to those providers will have their IOS / Program Type changed accordingly.

The following are the changes/additions that will be made for the Intensity of Service / Program Types.

- Out-of-Home(OOH) Provider Type will have a new IOS/Program Type:

- The youth who were previously in the IOS/Program Type for the above service providers (history) will be changed to the new IOS
