4 Defect Fixes

The following items were fixed and have been included in this release.

| FogBugz #/ Work Order # | Description |
|----------------------------|--|
| FB 27640 WO 277633 | ISSUE: Care Management Entities (CMO, MRSS) are getting a validation for an eligibility conflict with existing Premium Support Program (NON-CSOC Medicaid Eligibility) when attempting to submit a 3560 request. RESOLUTION: A code change was made to filter out the Premium Support Program eligibility as a validation when creating a 3560 application. |
| FB 27637 WO 277410 | ISSUE: In the Camp Request Form, supporting documents and requested camp dates are being cleared upon updating by the CSA. RESOLUTION: A code change was made to the code object file, "SaveDataAllTabs" which corrected the issue. |
| FB 27647 WO 277019 | ISSUE: Youth are being closed (Episodes) to the FSO prior to the date of enrollment (CMO/FSO). This would occur when the CMO was opened with a future date (on the weekends primarily) as the CMO was not technically active, the FSO AutoTerm would close the FSO in the episodes tab. RESOLUTION: The stored procedure, "usp_Episodes" was updated to account for CME start dates set with a future date. |
| FB 27648 WO 278364 | ISSUE: BSP Print displays "Error: Subreport could not be shown" for the Diagnosis section. RESOLUTION: A stored procedure change was made to correct the error in the print. |

| FB 27660 WO 279112 | ISSUE: Camp users are getting an error when attempting to upload documents from the link in the DOCUMENTS UPLOAD column of the Applications grid in My Portal. RESOLUTION: A code change was made to correct the issue. |
