4 New Features:

4.1 ICD-10 Code Changes System Scope

The ICD-10 code changes affect both the medical and behavioral health codes that are available for selection in a youth's record in CYBER. The following is a recap of the number of changes that will be made for FY2023 effective 10/1/2022. There are a total of 1861 changes (additions, deletions and revisions) which are highlighted below.

287 deletions

28 revisions

of which

28 revisions to both long and short titles

0 revisions to long title only

0 revisions to short title only

The ICD 10 Code changes apply to the following areas of CYBER where an ICD 10 Code can be entered in the Diagnosis section of the following:

- Youth's Facesheet
- Needs Assessment
- BPS Assessment
- CAT Assessment
- BHH Nursing Assessments
- OOH Assessment/YL Referral
- CMO/UCM Treatment Plans
- IIC BA Treatment Plans
- IIH Treatment Plans
- MRSS Treatment Plans
- OOH Treatment Plans
- Substance Use Treatment Plans
- UM Forms
- Claims/1500 Forms

The SED SPC37 Waiver will have the identified codes added to the Diagnosis Table utilized to determine if youth is eligible for the SPC37 waiver:

- F43.81 Prolonged grief disorder
- F43.89 Other reaction to severe stress

4.2 Assumptions

- All other ICD-10 Codes will remain unchanged
- ICD 10 Codes are not included in the authorizations created in CYBER
- ICD 10 Codes for the ASD Benefit and the CSSP IDD waiver have not changed.
- Any revised medical code where only the description has changed will display the new description in a youth's record for both newly added and historic diagnoses
- Any deleted medical code will be marked as inactive
 - The inactive code and description will still display in a youth's record if it was previously entered
 - The inactive code and description will no longer be available in the "Search Diagnosis Screen".
- Any revised behavioral health code where the description has changed will display the new description in a youth's record where previously selected (historic)
- Any deleted behavioral health code will be marked as inactive
 - The inactive code and description will still display in a youth's record if it was previously entered
 - The inactive codes and description will no longer be available for selection
- All codes must be included under ICD-10, unless specified in the BRS that codes are BH(Behavioral health) or BH+PH(Behavioral health+Physical health). Do not make changes to the existing codes in CYBER if they are designated as BH or BH+PH
- When we converted from DSM IV and ICD 9 to DSM V and ICD 10 in 2015, the State did not want a crosswalk between DSM V Diagnosis Codes and ICD 10 Codes. Since the ICD 10 Codes are not an exact match to DSM V diagnosis codes, one cannot determine if a "non billable" code is cross walked to a DSM V Diagnosis, so all codes (including Header codes) must be loaded into CYBER. The Clinician making the DSM V diagnosis determines the correct ICD 10 code, so do not disable the non -billable ([ValidFor_HIPAA_Submission_Code] = 0)

codes in CYBER.

- The ICD-10 cm_order_2023 file will be used to upload codes in CYBER- this is a complete list of all ICD-10 codes, including headers for FY 2023.
- Any codes not in CYBER, not indicated icd10cm_order_addenda file but indicated on icd10cm_order file will be uploaded into CYBER.
