5   New Features

CYBER HTML5 Hotfix Release 2.0.0.3 includes bug fixes.

6   Defect Fixes

The following items were fixed and have been included in this release.

Ticket ID/ALM	Description
ALM 34174	**Issue**: Issue identified with multiple session logins. When the user has multiple sessions open simultaneously either in the same browser or using different browsers, records are being saved under different id. **Resolution**: Code was modified to prevent the user to have multiple sessions open at the same time.
ALM 34185	**Issue**: Contracted System Administrator (CSA) is not able to send YouthLink (YL) referrals to YouthLink. When the user clicks Search due to specifiers disappear when the user clicks Search under providers grid, specifiers disappear.

Ticket ID/ALM	Description
	Resolution: Code was modified to resolve the issue. Specifiers are displayed when the user clicks Search under providers grid.
