4 New Functionality

4.1 Non-Medical Transportation Service

- ❖ Youth who are active with a Care Management Organization or Mobile Response and Stabilization Services can have non-Medical Transportation services requested on the plan of care.
- ❖ There will be new Service Codes added to the system for non-medical transportation as well the mileage portion of non-medical transportation.
- ❖ Youth must be less than 21 years of age in order to receive this service.
- ❖ The authorization time frame for this service will be 90 days with 18 units for each 90 day bundle code for a Non-Medical Transportation authorization.
- ❖ The units for the Mileage authorization will be 900.
- ❖ There will be a new Provider Type labeled Home Care/CSOC/DDD Supports/CCW (44) added to the system.
- ❖ There will be a new Provider Specialty labeled DCF/CSOC Non-Medical Transportation (838) added to the system.

4.2 Youth Link Cancel Logic

- ❖ A change will be made for a referral that is canceled to populate the number of days from the initial referral to the date it was canceled including referrals that are reposted:
 - If a referral is canceled, the Days on YouthLink field will display the number of days from the initial posting to the day it was canceled
 - If a referral was posted, canceled and then reposted the system will calculate the number of days the referral was actually active and display that number in the Days on YouthLink field.
 - A new column will be added to the YouthLink grid ‘Last Date Referral Canceled’ and will display the most recent date that a referral was canceled if the referral status is canceled. All other referral statuses will not display a date

- ❖ A new automated Progress Note will be generated each time a YouthLink Referral is auto canceled by the system. The system will use the current ‘Out of Home Referral’ type progress note to record the information.

- ❖ There was a YouthLink data clean up done on 2/4/2014. Therefore, the “Last Date Referral Cancelled” will indicate the date of 2/4/2014 for Cancelled Referrals where there was no date captured in the system. The Days on YouthLink calculation will then be based on the 2/4/2014 date.

5 Defect Fixes

The following items were fixed and have been included in this release.

FogBugz #/ Work Order #	Description
FB 22901 WO 196361	Issue: A DD Eligibility Application was not put into the Submitted status when the user submitted for review, and the Submit button became disabled preventing the user from trying to submit again. Resolved: This was an isolated issue and the status has been corrected.
FB 22925	Issue: When the CSA approves a FBA Assessment, there is no message returned confirming the approval. Resolved: When the CSA approved a FBA Assessment, users will now receive a pop up stating the Assessment is approved.
FB 22929 WO 199825	Issue: Users are able to enter characters that are not integers into the ID Num field on the Add Family/Support Member screen which is causing users to receive errors.
