2 Overview

This document provides the information related to the implementation of the CYBER version 1.44.5.0. The State of New Jersey, Department of Children and Families, Children’s System of Care (CSOC) has requested to make changes in CYBER to allow Care Management Organizations (CMO) and Mobile Response and Stabilization Services (MRSS) providers to collect the referral source for their agency. In addition, this release will include changes to the Provider Queue and Youth Link for the providers to identify the youth opened to the Specialized Residential Treatment Unit (SRTU). The release also includes changes to FSO episodes of care to capture episodes based on referrals to MRSS and CMO separately.

4 New Features

The following changes will be implemented in CYBER to capture the referral source for the CMO and MRSS providers:

- New data entry screen will be added to CYBER for the CMO and MRSS providers to collect referral source information for their agency.
- The Episodes and Security tabs will be modified to include the referral source.
- The referral source will be included in the Print functionality.

The following changes will be implemented in CYBER to identify youth opened to the SRTU:

- An Open to SRTU column will be added to the Provider Queue and Youth Link Grids on the OOH Specific Functions and OOH Provider Queue Management Screens.
- The Open to SRTU column will be included in the Print functionality for the Youth Link and Provider Queue grids.

The following changes will be implemented in CYBER to capture episodes based on referrals to MRSS and CMO separately:

- The batch job will be created to clean the existing FSO data.
- The existing FSO auto-term batch process that runs every night and automatically closes the Agency’s FSO Tracking Element will be modified.
- The system will create an additional FSO episode when MRSS and CMO opened during the same time.
 - The system will end the FSO (MRSS) episode when the MRSS services end via TICP.
 - The system will end the FSO (CMO) episode when the CMO services end via TISP.
- The system will update the FSO (MRSS) and FSO (CMO) entries on the Security tab.
- The FSO Welcome Page Link for the FANS Aging Report due date will be modified.
- The FSO Welcome Page Link for the Youth Access Prog Notes Aging Report due date will be modified.

5 Defect Fixes
