5 New Features

CYBER HTML5 Maintenance Release 2.0.0.19 includes bug fixes and performance optimization fixes for Family Support Services (FSS) application, Claims, Authorization, Care Management Organization (CMO), Intensive In Home (IIH), Intensive In Community (IIC), Out of Home (OOH) treatment plans, Biopsychosocial (BPS) assessment and Developmentally Disabled (DD) Eligibility application.

5.1 Health Insurance Claim - I/DD Waiver Progress Note Notation Sub Type

New progress note notation sub type I/DD Waiver will be added to the existing progress note notation type Health Insurance Claim. Existing functionality to read/create Health Insurance Claim progress note remains the same.

6 Defect Fixes

The following items were fixed and have been included in this release.

Ticket ID/ALM	Description
ALM 35055	**Reported Issue:** Contracted System Administrator (CSA) users reported that the Caregiver Name value is not copied over to the new Family Support Services (FSS) application. **Status**: Defect fixed; the code was modified to copy Caregiver Name in FSS application. **Expected Outcome:** Caregiver Name field will be populated in new FSS application when the user selects to create new FSS application using Copy functionality.
ALM 34423	**Reported Issue:** CSA users reported that the system doesn't display warning message when creating new FSS application for the youth who are 21 years old. **Status:** Defect fixed; the stored procedure was modified to generate the warning message. **Expected Outcome:** Warning message will be displayed when the CSA users create a new FSS application for the youth who are 21 years old.
ALM 34705	**Reported Issue:** CSA users reported that the system doesn't display validation message when a new FSS application is created for the youth that has active Managed Long Term Services and Supports (MLTSS) tracking element. **Status:** Defect fixed; the stored procedure was modified to display validation message. **Expected Outcome:** Validation message will be generated when the CSA users create a new FSS application for the youth with active MLTSS tracking element.

Ticket ID/ALM	Description
ALM 35145	**Reported Issue:** Children System Of Care (CSOC) users reported that CYBER application freezes when they open Developmentally Disabled (DD) Eligibility applications from Plan Approval. **Status:** Defect fixed; the code was modified to open DD Eligibility applications from Plan Approval. **Expected Outcome:** CSA users will be able to assign and open DD Eligibility applications from Plan Approval.
ALM 35250	**Reported Issue:** CSA users reported that Submitted Date field is not populated with the correct date for the Utilization Management (UM) forms. **Status:** Defect fixed; the code was modified to display the correct date in Submitted Date field of UM forms. **Expected Outcome:** Submitted Date field will be populated with correct date in UM forms.
ALM 34977	**Reported Issue:** CSA users reported that incorrect phone number is displayed in Youth Checklist form. **Status:** Defect fixed; the code was modified to display the correct phone number in Youth Checklist form. **Expected Outcome:** Correct phone number will be displayed in Youth Checklist form.
ALM 35636	**Reported Issue:** CSA users reported that incorrect phone number is displayed in Youth Checklist form. **Status:** Data Correction script will be used to fix the incorrect phone numbers in the impacted Youth Checklist forms. **Expected Outcome:** Correct phone number will be displayed in Youth Checklist forms.
ALM 35186	**Reported Issue:** CSA users reported that FSS program status changed to deactivated when they updated specifiers in FSS Provider Information File (PIF). **Status:** Defect fixed; the stored procedure was modified to fix the issues in FSS PIF. **Expected Outcome:** FSS program status will not be changed to deactivated when the user updates specifiers in FSS PIF.
ALM 34541	**Reported Issue:** CYBER security administrators reported that they are not able to search for the user ids with special character (') in Manage Access.

Ticket ID/ALM	Description
	Status: Defect fixed; the stored procedure was modified to fix the issues in Manage Access search functionality. **Expected Outcome:** CYBER security administrators will be able to search user ids with special character (') in Manage Access.
ALM 34624	**Reported Issue:** CSA users reported that Autism Spectrum Disorder specifier checkbox is not selected by default in Provider Search tab of FSS application when the same specifier is selected in Demographics tab. **Status:** Defect fixed; the code was modified to enable the selection of Autism Specifier by default in Provider Search tab. **Expected Outcome:** Autism Spectrum Disorder specifier checkbox will be selected by default in Provider Search tab of FSS application.
ALM 35270	**Reported Issue:** CSA users reported that they are not able to reactivate the DD Eligibility applications. **Status:** Defect fixed; the code was modified to fix the issues in reactivate functionality of DD Eligibility applications. **Expected Outcome:** CSA users will be able to reactivate the DD Eligibility applications.
ALM 35263	**Reported Issue:** CSA users reported that the progress note is not generated when existing Youth Checklist is modified. **Status:** Defect fixed; the stored procedure was modified to trigger the progress note. **Expected Outcome:** Progress note will be generated when existing Youth Checklist is modified.
ALM 35348	**Reported Issue:** Incorrect validation message is displayed when Out of Home (OOH) users select N/A in Other field of Treatment Team Members To Child Ratios tab in Annex A Addendum (AAA) and click Submit button. **Status:** Defect fixed; the code was modified – incorrect validation will not be displayed. **Expected Outcome:** Incorrect validation message will not be displayed when Out Of Home (OOH) users select N/A in Other field of Treatment Team Members To Child Ratios tab in AAA and click Submit button.
ALM 34751	**Reported Issue:** FBA Request Included checkbox is editable for Care Management Organization (CMO) treatment plans for CSA users.

Ticket ID/ALM	Description
	Status: Defect fixed; the code was modified to disable the FBA Request Included for CMO treatment plans. **Expected Outcome:** FBA Request Included checkbox will be disabled for CMO treatment plans for CSA users.
ALM 35219 ALM 35115	**Reported Issue:** CSA users reported that they are not able to Unsubmit 3560 Application from Approval tab. **Status:** Defect fixed; the code was modified to Unsubmit 3560 application from Approval tab. **Expected Outcome:** CSA users will be able to Unsubmit 3560 Application from Approval tab.
ALM 35039	**Reported Issue:** CYBER users are not able to add provider record on youth's Face Sheet Providers tab since Start Date and End Date fields are greyed out. **Status:** Defect fixed; the code was modified to enable Start Date and End Date fields on the Provider tab of youth's Face Sheet. **Expected Outcome:** CYBER users will be able to add provider record on youth's Face Sheet Providers tab.
ALM 34991	**Reported Issue:** OOH users reported that other users from their agency are able to edit treatment plans even if plans are not assigned to them. **Status:** Defect fixed; the code was modified to fix the issues in OOH treatment plans. **Expected Outcome:** OOH users will not be able to edit the treatment plans if the plans are not assigned to them.
ALM 34668	**Reported Issue:** OOH users reported that the Copy Treatment Plan button becomes disabled after they click Save button within their treatment plan. **Status:** Defect fixed; the code was modified to fix Copy Treatment Plan button issue. **Expected Outcome:** Copy Treatment Plan button will not be disabled after user clicks Save button within their treatment plan.
ALM 34799	**Reported Issue:** OOH users reported that the Copy Diagnosis functionality is not working for OOH treatment plans. **Status:** Defect fixed; the code was modified to fix the issues in Copy Diagnosis functionality.

Ticket ID/ALM	Description
	Expected Outcome: OOH users will be able to Copy Diagnosis and submit their treatment plans.
ALM 35178 ALM 35173 ALM 35187	**Reported Issue:** CMO users reported that they are not able to submit the Behavioral Health Home (BHH) nursing assessments due to incorrect validations. The system displays validation message even though the user entered required information in all the required tabs/fields. **Status:** Defect fixed; the code was modified to fix the issues in BHH nursing assessments. **Expected Outcome:** CMO users will be able to submit the BHH nursing assessments.
ALM 35156	**Reported Issue:** Family Support Organization (FSO) users reported that they are not able to transfer the Family Assessment of Needs and Strengths (FANS) to other users within their agency. **Status:** Defect fixed; the code was modified fix FANS transfer functionality. **Expected Outcome:** FSO users will be able to transfer the FANS to other users in their agency.
ALM 35330	**Reported Issue:** CSA users reported that authorization search functionality on CSA welcome page is not working. **Status:** Defect fixed; the code was modified to fix the issues in authorization search functionality. **Expected Outcome:** CSA users will be able to search the authorization on their welcome page.
ALM 35384 ALM 34888	**Reported Issue:** CSA users reported that claim is duplicated when they submit or accept the claim. **Status:** Defect fixed; the code was modified display single claim record. **Expected Outcome:** Claim will not be duplicated while submitting or approving the claim.
ALM 35494	**Reported Issue:** CSA users reported that claim submitted date changed to current date when they approve the claim. **Status:** Defect fixed; the stored procedure was modified to retain the submitted date. **Expected Outcome:** Submitted date will display the date the claim was submitted. The date will not be updated after the claim is approved.

Ticket ID/ALM	Description
ALM 34619	**Reported Issue:** Partial Hospitalization Program (PHP) and Multi-Systemic Therapy (MST) users reported that they are not able to submit the Needs assessments due to incorrect validations. The system displays validation message even though the user entered required information in all the required tabs/fields. **Status:** Defect fixed; the code was modified to fix the issues in Needs assessment. **Expected Outcome:** PHP and MST users will be able to submit the Needs assessment.
ALM 35289	**Reported Issue:** Intensive in Community (IIC) users reported that they are not able to submit BPS due to incorrect validations. **Status:** Defect fixed; the code was modified to disable incorrect validation. **Expected Outcome:** IIC users will be able to submit the BPS assessment.
ALM 35340 ALM 33297	**Reported Issue:** CSA users reported that they are not able to save insurance information on the youth's Face Sheet Insurance tab. **Status:** Defect fixed; the code was modified to address save functionality for insurance records. **Expected Outcome:** CSA users will be able to add the new insurance record on the youth's Face Sheet Insurance tab.
ALM 34801	**Reported Issue:** CMO users reported that Parent/Guardian details are displayed in Demographics tab of OOH assessment for the supports that have end date on the Supports tab of the youth's Face Sheet. **Status:** Defect fixed; the stored procedure was modified to display correct Parent/Guardian information in OOH assessment. **Expected Outcome:** Correct Parent/Guardian information will be displayed on Demographics tab of OOH assessment.
ALM 35484	**Reported Issue:** CMO users reported that they are not able to open the uploaded documents when accessing youth's record using Historical Access. **Status:** Defect fixed; the code was modified to fix the issues in Doc tab of Face Sheet. **Expected Outcome:** CMO users will be able to open the uploaded documents from for the youth when accessing record using Historical Access.

Ticket ID/ALM	Description
ALM 35214	**Reported Issue:** IIC users reported that when they create a plan using copy functionality, unassociated matrix data from the previous plan is also copied over. **Status:** Defect fixed; the code was modified to fix the issues in IIC treatment plan copy functionality. **Expected Outcome**: IIC users will be able to create a plan using copy functionality. The data will be copied over from the previous plan without the unassociated matrix data.
ALM 35239	**Reported Issue:** IIC users reported that data is not saving in Youth Vision/Family Vision, Medication and Family Crisis Plan tabs of their treatment plans. **Status:** Defect fixed; the stored procedure was modified to fix save functionality in Youth Vision/Family Vision, Medication and Family Crisis Plan tabs of IIC treatment plans. **Expected Outcome:** IIC users will be able to save data entered in Youth Vision/Family Vision, Medication and Family Crisis Plan tabs in all IIC treatment plans.
ALM 35218	**Reported Issue:** IIC users reported that Matrix data is associated incorrectly when the system is too slow. This issue has been happening due to performance of the application and affects all IIC users. **Status:** Defect fixed; the code was modified to improve the performance of the application. **Expected Outcome:** IIC users will be able to associate the Matrix data correctly and submit their treatment plans.
ALM 35361	**Reported Issue:** IIC users reported that they are not able to associate Desired Outcomes/Goals in Matrix for Behavioral Assistance (BA)_2 treatment plans. **Status:** Defect fixed; the code was modified to fix association of Desired Outcomes/Goals in Matrix. **Expected Outcome:** IIC users will be able to associate Desired Outcomes/Goals in Matrix for BA_2 treatment plans.
ALM 35264	**Reported Issue:** IIC users reported that Create Date is updated to the current date when saving or approving the BA_2 treatment plans. **Status:** Defect fixed; the code was modified to retain the Create Date for BA_2 treatment plans.

Ticket ID/ALM	Description
	Expected Outcome: BA_2 treatment plans Create Date will be retained when the plans are saved or approved.
ALM 35143	**Reported Issue:** IIC users reported that they are not able to add new Support Attendee in their treatment plans. **Status:** Defect fixed; the code was modified to fix the issues in adding new Support Attendee. **Expected Outcome:** IIC users will be able to add new Support Attendee in their treatment plans.
ALM 34625 ALM 35609	**Reported Issue:** Export to Excel option is missing in Youth Link Print page; and Open To SRTU and Last Date Referral Cancelled fields displaying incorrect values in Print. **Status:** Defect fixed; the stored procedure was modified to add Excel option to the Print and map correct values in Youth Link Print. **Expected Outcome:** Excel option will be added in Youth Link Print page; Open To SRTU and Last Date Referral Cancelled fields will display correct values in Print.
ALM 35503	**Reported Issue:** CSA users reported that Staged button for Approved Claims from Welcome Page right side hyperlink - Claims is not functioning. **Status:** Defect fixed; the code was modified to fix Staged button functionality. **Expected Outcome:** CSA users will be able to Stage the claims from Approved Status when they click Staged button.
ALM 34713	**Reported Issue:** Duplicate records are created in Episodes tab when the user updates existing record. **Status:** Defect fixed; the code was modified save changes for the existing record when the user modifies existing Episode. **Expected Outcome:** Duplicate records will not be generated in Episodes tab when the user modifies existing record.
ALM 35568	**Reported Issue:** Delete button is enabled for the CMO treatment plans when they are returned from CSA. **Status:** Defect fixed; the code was modified to disable the Delete button when CMO treatment plans are returned from CSA. **Expected Outcome:** Delete button will be disabled for the CMO treatment plans when they are returned from CSA.

Ticket ID/ALM	Description
ALM 35567	**Reported Issue:** Active diagnoses are not copied over in CMO treatment plans if diagnosis record have active and expired diagnosis codes. **Status:** Defect fixed; the code was modified to copy active diagnosis records in CMO treatment plan. **Expected Outcome:** Active diagnosis records will be copied in Diagnosis tab of CMO treatment plan when diagnosis has active and inactive codes.
ALM 35460	**Reported Issue:** Incorrect data is displayed in Substance Use Treatment (SUT) treatment plan print. **Status:** Defect fixed; the stored procedure was modified to display correct data in SUT treatment plans print. **Expected Outcome:** SUT treatment plan print document will display correct values.
ALM 35407	**Reported Issue:** Intensive In Home (IIH) users reported that CYBER freezes when they select the existing plan in the Copy Treatment Plan grid within their treatment plan. **Status:** Defect fixed; the code was modified to fix the issues in Copy Treatment Plan grid. **Expected Outcome:** IIH users will be able to copy previously approved plan in order to create new treatment plan.
ALM 35273	**Reported Issue:** IIH users reported that they are not able to add new medication in their treatment plan. **Status:** Defect fixed; the code was modified to fix add the new medication functionality in treatment plan. **Expected Outcome:** IIH users will be able to add new medication s in their treatment plan.
ALM 35558	**Reported Issue:** IIC users reported that they are not able to create treatment plan when the user ids are more than 20 characters. **Status:** Defect fixed; the code was modified to allow users with 20 character user ids to create the treatment plan. **Expected Outcome:** IIC users will be able to create new treatment plan.
ALM 35559	**Reported Issue:** IIC users reported that they are not able to save progress note when the user ids have special character ('). **Status:** Defect fixed; the code was modified to save the progress note.

Ticket ID/ALM	Description
	Expected Outcome: IIC users will be able to save progress note.
ALM 35569	**Reported Issue:** CSA users reported that decimal values are not correctly populated in Per Unit Cost field while creating new authorization. **Status:** Defect fixed; the code was modified to populate the decimal values in Per Unit Cost field. **Expected Outcome:** Decimal values will be correctly populated in Per Unit Cost field while creating new authorization.
ALM 35551	**Reported Issue:** CMO users reported that they are not able to copy previous OOH Assessment when creating new OOH assessment. **Status:** Defect fixed; the code was modified to address the issues in OOH Assessments copy functionality. **Expected Outcome:** CMO users will be able to copy previous OOH Assessment when creating new OOH assessment.
