5   New Features

CYBER 2.0.0.19.1 includes implementation of updating from password to passphrase and associated changes in CYBER, Family Portal and Provider Portal.

5.1 Upgrade from Passwords to Passphrase

The following changes will be made in CYBER, Family and Provider portals as a part of the implementation of upgrading from Passwords to Passphrase:

- There will be new password requirements for CYBER, Family Portal, and Provider Portal.

- The current password requirements will be replaced with new passphrase requirements on Edit My Login screen in CYBER.
- There will be changes to the Reset password screen in CYBER.
- Existing validation message will be removed from the Reset password screen in CYBER.
- There will be new requirements to the temporary passphrase that is generated by the system.
- There will be changes to the Family Portal screen in CYBER.
- Existing validation messages will be removed from the Create New Account screen, Forgot Password screen and the Manage Account screen in the Family Portal.
- There will be changes to the Provider Portal screen in CYBER.
- Existing validation messages will be removed from the Forgot Password screen and the Manage Account screen in the Provider Portal.

6 Defect Fixes

The following item was fixed and has been included in this release.

Ticket ID/ALM	Description
ALM 35665	**Reported Issue:** Mobile Response and Stabilization Services (MRSS) users reported that Crisis Assessment Tool (CAT) assessment footer buttons are greyed out once the assessment is assigned to another user within the same agency. **Status:** Defect fixed; the code was modified to fix the issues in CAT assessment. **Expected Outcome:** MRSS users will be able to assign and submit the CAT assessment.
Ticket 225167/ALM 35667	**Reported Issue:** Contracted System Administrator (CSA) users reported that previous youth record information is displayed while searching for another youth with Social Security Number (SSN) number using Quick Search on their Welcome Page. **Status:** Defect fixed; the code was modified to address the issues in Quick Search functionality of Welcome Page. **Expected Outcome:** CSA users will be able to search youth information using Quick Search.
ALM 35552	**Reported Issue:** While copying 3560 application from existing approved record, incorrect value is displayed in the Number of Persons in the Home field of 3560 application Approval tab. **Status:** Defect fixed; the stored procedure was modified to fix the issues in Number of Persons in the Home field of Approval tab. **Expected Outcome:** Correct value will be displayed in the Number of Persons in the Home field of 3560 application Approval tab.

Ticket ID/ALM	Description
Ticket 225184/ALM 35647	**Reported Issue:** CSA users reported that the Out of Home (OOH) assessment fields are editable after the assessment is submitted to the CSA. **Status:** Defect fixed; the code was modified to disable the OOH assessment fields after the assessment is submitted to the CSA. **Expected Outcome:** CSA users will not be able to edit the OOH Assessment once it is submitted to the CSA.
Ticket 227732/ALM 35707	**Reported Issue:** Validation message is displayed when the user enters correct values in the Assessment Date and Assessment Completion Date fields in Demographics tab of the Strength and Needs Assessment (SNA) and CAT assessment. **Status:** Defect fixed; the code was modified to disable the validation message in SNA and CAT assessments. **Expected Outcome:** Validation message will not be displayed when the user enters correct values in the Assessment Date and Assessment Completion Date fields in Demographics tab of SNA and CAT assessments.
Ticket 222730/ALM 35633	**Reported Issue:** MRSS users reported the data misalignment issues in their treatment plans. **Status:** Defect fixed; the code was modified to address the data misalignment issues in MRSS treatment plans. **Expected Outcome:** MRSS users will be able to create and submit treatment plans without any data misalignment issues.
